# Key Points

11/01/18 - 11/07/18

## Thursday

- Slightly elevated fire weather conditions across southern California due to offshore winds decreasing today.

## Friday - Wednesday

- Areas of elevated to locally critical fire weather conditions possible beginning Friday night again, and each day after due to periods of light to moderate offshore winds and the resulting above normal temperatures and low humidity
- Otherwise, no significant impacts expected at this time as no precipitation is expected statewide through Wednesday.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

- Next periods of significant northerly winds expected Friday night and Saturday then perhaps next Tuesday/Wednesday.
- High pressure will still dominate the weather pattern next 7 days with a few minor weather systems occasionally weakening the high as they pass by to the north.
- Winds will continue to be northerly for Northern California overall for the next 7 days, but in the wake of those minor weather systems, speeds will increase for a period. Confidence is reasonably high that Friday night and Saturday will have those stronger northerly winds with gusts 25-35 mph in the favored areas.
- Low afternoon relative humidity (RH) with mostly moderate overnight recoveries will persist west of the Cascade-Sierra crest with lowest afternoon RHs there generally 12-20%, possibly lower when the northerly winds are stronger. Overnight RH recoveries will generally be 50% or higher, but on the breezier north wind days, they may be only 20-35% where stronger winds persist overnight.
- Temperatures will generally be 5-12 degrees above seasonal normals with the warmest inland areas lower 80s for the next few days before cooling into the upper 70s.
- No precipitation is expected, even in the far northern areas when the weather systems pass by.

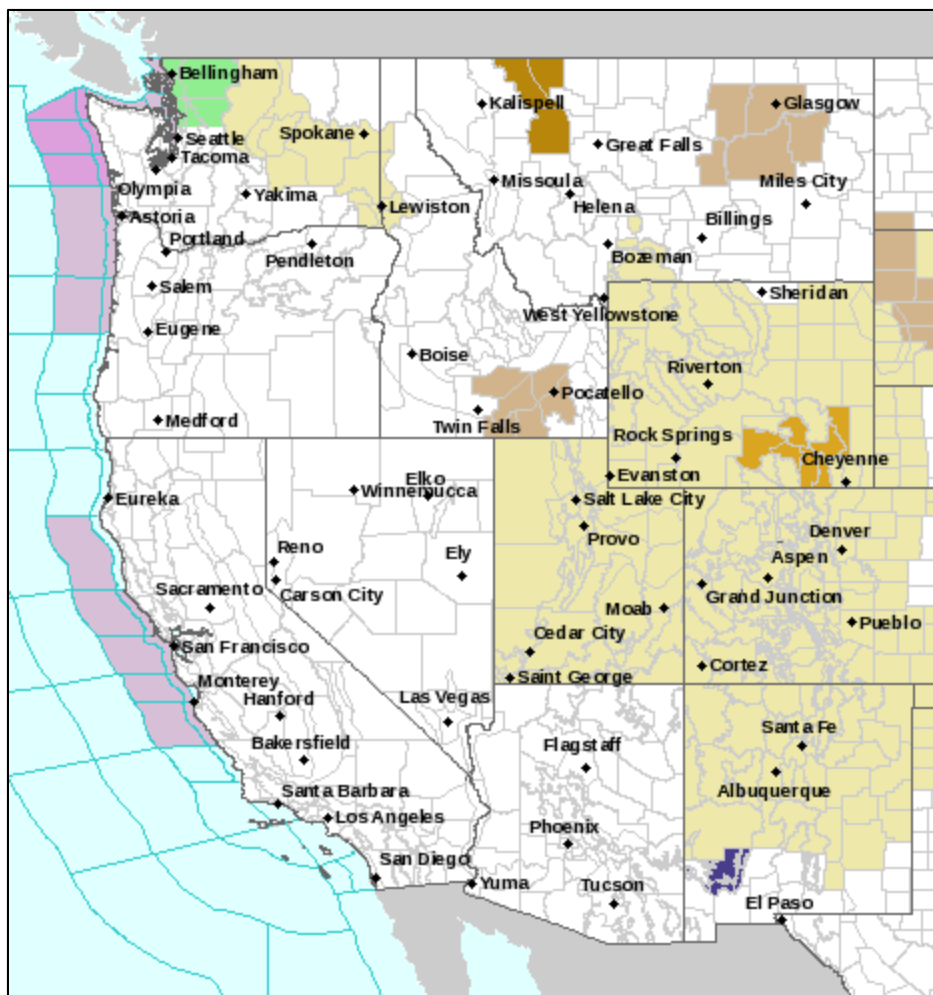

## **SOUTHERN CALIFORNIA**

- Sunny, warm, and dry weather is expected to continue through Saturday. Local offshore winds will be possible this morning across Los Angeles and Ventura counties as well as the Cajon Pass. All winds should become light tonight into Friday. A minor increase in offshore winds may briefly develop Sunday morning. Cooler and more humid weather looks to arrive next Monday.
- High temperatures today will range from the 70s in the mountains below 6,000 feet to near 90 in the warmest valleys. Temperatures will drop into the upper 70s to lower 80s in the valleys and a return of marine layer stratus should occur by Monday.
- Northeast winds of 10-20 mph with gusts to 30 mph will be possible in portions of Southern California this morning. Expect light northeast winds of 5-10 mph tonight and again Friday night. A bit stronger winds may develop for a few hours Sunday morning.
- Minimum RH dropping into the 8-15% range across most areas away from the immediate coast. Poor RH recovery can be expected across Southern California outside the valley floors through Friday night. Higher RH will overspread the region next Monday and Tuesday.
- No precipitation is expected the next two weeks.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-52648, 10/31/18, 1755 hours:** Placer County Sheriff's Office (PCSO) requested the assistance of Nevada County Sheriff's Office (NCSO) Human Remains Detection (HRD) K9 team to search for a missing female that was last seen 09/01/18. The requested resource is to meet for 0800 briefing this Friday, 11/02/18, at a location to be determined by PCSO. PCSO is coordinating the response with NCSO. **Mission Ongoing.**
- **2018-LAW-52589, 10/28/18, 1800 hours:** Alpine County Sheriff's Office (ACSO) requested an incident support team and 20 Type-2 ground searchers to assist in searching for a missing 55 year old solo hiker in the Carson Pass Summit area. The requested resources were to meet for a 0700 hour briefing on 10/29/18, at the ICP near Lower Blue Lake. Eldorado County Sheriff's Office (EDSO) has accepted the mission and will fulfill ACSO's SAR Mutual Aid request. **Update:** 10/29/18, 0825 hours, ACSO requested a CNG hoist capable helicopter, 25 Nanos and technician for a 3 day deployment with an immediate response. CNG accepted the mission and deployed. At 1032 hours, ACSO requested Cal OES Telecommunication MIGU-4 and a cache of hand held programmable radios for an immediate response. The Cal OES Law Enforcement Duty Officer (LDO) coordinated with the Cal OES Tactical Communications Duty Officer (TDO) and deployed the requested resources to the ICP. **Update:** 10/29/18, 1432 hours, ACSO requested 25 Type-1 and Type-2 SAR ground searchers, 3 SAR Area K9 teams, and IST support for an operational period on Tuesday, 10/30/18, with a 0700 briefing at the ICP. Amador, Calaveras, Nevada, Placer, Sacramento, and Tuolumne County Sheriff's accepted the mission and fulfilled ACSO's request. **Update:** 10/30/18, 0905 hours, ACSO requested 40 Type1 or Type-2 SAR ground searchers, 4 SAR Area K9 teams, IST support team, and an aircraft capable of night operations with infrared and downlink capabilities as there were no local or county helicopters with that capability for night operations. This resource request is for operational periods 10/31/18 and 11/01/18 with 0700 hour briefing at Turtlerock Park, 17300 Hwy 89, Markleeville. LDO made the night operation aircraft request to CNG for the RC26 and its platform. CNG advised it was not available but a UAS (MQ9) had the same capability and was available. At 1035 hours, LDO made the request with CNG via the Air Force Rescue Coordination Center (AFRCC) for the MQ9 and IAA support team. **Update:** 10/30/18, 1703 hours, AFRCC and the USNORTHCOM Commander sanctioned the mission #18M-0827A. CNG IAA was on station with ACSO IC and the MQ9 scheduled to arrive on station at 2000 hours, 10/30/18. **Update:** 10/30/18, 1902 hours, Alameda, Contra Costa, Marin, Monterey, Sacramento, and San Mateo County Sheriff's Offices accepted the mission and fulfilled ACSO's request. Cal OES LEB coordinated the response of 6 SAR Area K9 teams. **Update:** 10/31/18, 1045 hours, ACSO is requesting to continue with an additional 3-day deployment, 11/01/18-11/03/18, for a CNG hoist capable helicopter to be used for inserting SAR ground searchers and searching by air and continuing use of the 25 nanos and technician for support. **Update:** 10/31/18, 1428 hours, CNG accepted the mission and will fulfill ACSO's request. ACSO's IC is also requesting to continue the MQ9 missions with IAA support. **Update:** 10/31/18, 1511 hours, ACSO requested an airborne communication relay from Civil Air Patrol (CAP). The request is for day operational periods beginning 11/01/18 through 11/04/18. LDO made the request through AFRCC. At 1715 hours, AFRCC accepted the mission and placed it under their current mission as the MQ9/IAA request, #18M-0827A. A CAP IC, Mark Sobel, was identified. ACSO was advised. **Update:** 10/31/18, 1827 hours, Fresno, Kern, and Mono County Sheriff's Office were additional counties, which accepted the mission and fulfilled ACSO's request. Cal OES LEB coordinated the response of 4 SAR Area K9 teams. **Mission Ongoing.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-Cal OES-51904:** 2018 July Statewide Wildfires – CNG to provide 55 SHOUT NANO devices, 1 laptop computer, transportation, and required training in support of debris removal operations in the Carr Fire burn area. (On Scene)
- **2018-IREOC-49869:** 2018 July Statewide Wildfires - Debris Management Task Force for Shasta County. (Coordinating)
- **2018-IREOC-48515:** 2018-07-05-Klamathon Wildfire - Air monitors in Siskiyou County due to the Klamathon Fire. (On Scene)
- **2018-CREOC-48046:** 2018-06-23-Lake-Wildland Fire - DTSC to clear debris from Pawnee Fire. (Coordinating)
- **2018-IREOC-45244:** Daily Operations - Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene - Long-term assignment)
- **2017-SOC-44098:** 2017 December Wildfires - CalRecycle Debris Management Team in Ventura County. (On Scene)
- **2017-Inland-42559:** Daily Operations - Weather station installed to gather real time rainfall data by Air Resources Control Board (ARB). Mission extended through 05/30/19. (On Scene)
